The creators of HeTexted.com—the wildly popular blog for decoding “obtuse male texting”—give you a frank, funny, and refreshingly helpful guide to dating in the digital age.

You’re a busy, intelligent, modern woman. You stay on top of work email. You “like” all the baby photos your sister posts on Facebook. You found your dream job through LinkedIn. But when your crush texts you “What’s up?” every few days, yet never asks you out, what the heck does that mean?

These days, dating is more confusing than ever. Friending? Following? Liking? Poking? Linking? LOLing? WTF? In an era when FaceTime is no longer the same as face-to-face, it’s no wonder you can’t tell if he’s into you or just really into his iPhone.

This hilarious and essential guide from the founders of HeTexted.com—with totally straightforward guy sight from the HeTexted Bros—will help you autocorrect your digital dating life, from decoding your Facebook friendships, to reading the intentions behind guys’ perplexing texts, to deciding when—if ever—you should text him first. It’s *He’s Just Not That Into You* for the digital age and *What to Expect When You’re Expecting...a second date*—all in one invaluable package!
