This little volume (the result of meditation and experience) is not intended as an exhaustive treatise on the subject of the power of thought. It is suggestive rather than explanatory, designed to stimulate men and women to the discovery and perception of the truth that they themselves are makers of themselves by virtue of the thoughts which they choose and encourage; that mind is the master weaver, both of the inner garment of character and the outer garment of circumstance, and that, as they may have hitherto woven in ignorance and pain they may now weave in enlightenment and happiness.
