What's the difference between a faithful companion and a feral animal? Wild Bill suspects the line separating the two is shaky at best. Supposedly, Michael has been tamed, and he swears he gave up hunting. But when he comes home covered in blood and reeking of adrenaline, Bill fears Michael has crossed paths with another bloodsucker, and the urge to exterminate the vamp was too powerful to resist.

Michael doesn't need to hunt vampires to stir up trouble. His run-in with threatening neighbors has left him baffled, demoralized, and teetering on the brink of yet another episode of depression. It tears Bill up inside to see Michael suffer—unfortunately, the sorrow also trips his most primal vamp triggers. Before he knows it, his own inner beast rears up, ravenous, insatiable, and ready to tear into the next thing that crosses his path...making him wonder if it was wishful thinking to hope that either of them had been successfully domesticated.

Canine takes place after Elixir and contains series spoilers
