You'll find ways to nurture resilience, rationality and relaxation in your every day life, and learn how to loosen the grip of worry and anxiety. Through techniques that get to the heart of your unique stress response, and an exploration of how stress can affect your relationships, you'll discover how to control stress instead of letting it control you. This book shows you how. Here Is What You Will Learn After Reading This Book:

- A deeper understanding of what stress really is and the role it plays in our lives
- The real sources of our anxiety and how to take ownership of them
- A real-world solution to living with less stress
- Dating and relationships without stress and worry
- Ways to bring tranquility and balance into your home and family life
- And much more!

Here's A Preview Of Chapter 1: This book is not just another “anti-stress” book. Here, we will not be concerned with only reducing the symptoms of stress. Rather, we'll try to understand exactly what stress is and the role it plays in our lives. We'll attempt to dig deep to really understand the real sources of our anxiety and how to take ownership of them. Using the power of habit and several techniques for smoothing out the stressful wrinkles in our day-to-day lives, we'll move towards a real-world solution to living with less stress, more confidence and a deep spiritual resilience that will insulate you from the inevitable pressures of life. We will address physical, emotional, relational, spiritual, and cognitive and behavioral symptoms of stress. This book will be a little different from most stress-management tools on the market today. While most stress solutions offer relief for symptoms in only one or two of the above areas, this book will show you how all five areas are important, and a successful stress solution will touch on each of them. By adopting a trusting, open and relaxed attitude, we'll bring something more of ourselves to relationships of all kinds. This books will take a look at dating and relationships without stress and worry, as well as ways to bring tranquility and balance into your home and family life. Again, this book is not about eradicating stress from your life forever. We'll end with a consideration of the positive side of negative thinking, and how we can use stress and worry to our advantage.
