Digital Citizenship in Schools, 2nd Edition Mike Ribble
Updated to reflect the refreshed NETS*S, this bestselling ISTE book is a must for all educators as they lead students through the digital environments that are a part of their everyday lives.

Today, billions of people all over the planet interact using various technologies. This interaction has created a digital society that affords its members opportunities for education, employment, entertainment, and social interaction. As in any society, it is expected that digital citizens act in a certain way-according to accepted norms, rules, and laws. Most of today's students are entirely comfortable with technology, but are they using it appropriately? Do they understand their roles and responsibilities in digital society? How can teachers help students become responsible digital citizens?

Digital Citizenship in Schools, Second Edition is an essential introduction to digital citizenship. Starting with a basic definition of the concept and an explanation of its relevance and importance, author Mike Ribble goes on to explore the nine elements of digital citizenship. He provides a useful audit and professional development activities to help educators determine how to go about integrating digital citizenship concepts into the classroom. Activity ideas and lesson plans round out this timely book.

The International Society for Technology in Education (ISTE) is the trusted source for professional development, knowledge generation, advocacy and leadership for innovation. ISTE is the premier membership association for educators and education leaders engaged in improving teaching and learning by advancing the effective use of technology in PK-12 and teacher education. Home of the National Educational Technology Standards (NETS), the Center for Applied Research in Educational Technology (CARET), and ISTE's annual conference (formerly known as the National Educational Computing Conference, or NECC), ISTE represents more than 100,000 professionals worldwide. We support our members with information, networking opportunities, and guidance as they face the challenge of transforming education.

Some of the areas in which we publish are:
-Web. 2.0 in the classroom-RSS, podcasts, and more
-National Educational Technology Standards (NETS)
-Professional development for educators and administrators
-Integrating technology into the classroom and curriculum
-Safe practices for the Internet and technology
-Educational technology for parents
