The War of the Worlds H.G. Wells

H. G. Wells' *The War of the Worlds* is one of science fiction literature's most enduring classics. As one of the earliest examples of an alien invasion narrative, this 19th century tale of London's violent takeover by an alien race has significantly influenced science fiction literature as well as television and cinema for generations. Wells is extremely adept at exposing the virtues and vices of humanity against a backdrop of crisis, and this talent lends substance to this dramatic adventure story.
