Thomas More

Utopia: Thomas More Thomas More

First published in 1516, Saint Thomas More's *Utopia* is one of the most important works of European humanism. Through the voice of the mysterious traveller Raphael Hythloday, More describes a pagan, communist city-state governed by reason. Addressing such issues as religious pluralism, women's rights, state-sponsored education, colonialism, and justified warfare, *Utopia* seems remarkably contemporary nearly five centuries after it was written, and it remains a foundational text in philosophy and political theory. Prominent More scholar Clarence H. Miller does justice to the full range of More's rhetoric in this new translation. Professor Miller includes a helpful introduction that outlines some of the important problems and issues that *Utopia* raises, and also provides informative commentary to assist the reader throughout this challenging and rewarding exploration of the meaning of political community.
