Participatory Mapping: New Data, New Cartography (Iste) Jean-Christophe Plantin

This book is intended for applications of online digital mapping, called mashups (or composite application), and to analyze the mapping practices in online socio-technical controversies. The hypothesis put forward is that the ability to create an online map accompanies the formation of online audience and provides support for a position in a debate on the Web.

The first part provides a study of the map:

- a combination of map and statistical reason
- crosses between map theories and CIS theories
- recent developments in scanning the map, from Geographic Information Systems (GIS) to Web map.

The second part is based on a corpus of twenty "mashup" maps, and offers a techno-semiotic analysis highlighting the "thickness of the mediation" they are in a process of communication on the Web. Map as a device to "make do" is thus replaced through these stages of creation, ranging from digital data in their viewing, before describing the construction of the map as a tool for visual evidence in public debates, and ending with an analysis of the delegation action against Internet users.

The third section provides an analysis of these mapping practices in the case study of the controversy over nuclear radiation following the accident at the Fukushima plant on March 11, 2011. Techno-semiotic method applied to this corpus of radiation map is supplemented by an analysis of web graphs, derived from "digital methods" and graph theory, accompanying the analysis of the previous steps maps (creating Geiger data or retrieving files online), but also their movement, once maps are made.

From reader reviews:

Winston Craig:

Nowadays reading books are more than want or need but also turn into a life style. This reading addiction give you lot of advantages. The advantages you got of course the knowledge the actual information inside the book that will improve your knowledge and information. The details you get based on what kind of publication you read, if you want get more knowledge just go with knowledge books but if you want sense happy read one with theme for entertaining like comic or novel. The particular Participatory Mapping: New Data, New Cartography (Iste) is kind of guide which is giving the reader capricious experience.

Anita Rhodes:

People live in this new moment of lifestyle always try and and must have the spare time or they will get lots of stress from both everyday life and work. So , when we ask do people have time, we will say absolutely without a doubt. People is human not really a huge robot. Then we request again, what kind of activity are there when the spare time coming to you actually of course your answer will certainly unlimited right. Then ever try this one, reading guides. It can be your alternative throughout spending your spare time, the book you have read is definitely Participatory Mapping: New Data, New Cartography (Iste).

Ellis Arnold:

You are able to spend your free time to learn this book this guide. This Participatory Mapping: New Data, New Cartography (Iste) is simple to develop you can read it in the recreation area, in the beach, train as well as soon. If you did not have got much space to bring typically the printed book, you can buy often the e-book. It is make you much easier to read it. You can save the actual book in your smart phone. And so there are a lot of benefits that you will get when you buy this book.

William Fields:

What is your hobby? Have you heard this question when you got pupils? We believe that that query was given by teacher on their students. Many kinds of hobby, All people has different hobby. Therefore you know that little person including reading or as reading become their hobby. You should know that reading is very important in addition to book as to be the factor. Book is important thing to include you knowledge, except your own teacher or lecturer. You see good news or update in relation to something by book. Many kinds of books that can you go onto be your object. One of them is niagra Participatory Mapping: New Data, New Cartography (Iste).
