Parallel and Distributed Processing: 15 IPDPS 2000 Workshops Cancun, Mexico, May 1-5, 2000 Proceedings (Lecture Notes in Computer Science)

This volume contains the proceedings from the workshops held in conjunction with the IEEE International Parallel and Distributed Processing Symposium, IPDPS 2000, on 1-5 May 2000 in Cancun, Mexico. The workshops provide a forum for bringing together researchers, practitioners, and designers from various backgrounds to discuss the state of the art in parallelism. They focus on different aspects of parallelism, from runtime systems to formal methods, from optics to irregular problems, from biology to networks of personal computers, from embedded systems to programming environments; the following workshops are represented in this volume: { Workshop on Personal Computer Based Networks of Workstations { Workshop on Advances in Parallel and Distributed Computational Models { Workshop on Par. and Dist. Comp. in Image, Video, and Multimedia { Workshop on High-Level Parallel Prog. Models and Supportive Env. { Workshop on High Performance Data Mining { Workshop on Solving Irregularly Structured Problems in Parallel { Workshop on Java for Parallel and Distributed Computing { Workshop on Biologically Inspired Solutions to Parallel Processing Problems { Workshop on Parallel and Distributed Real-Time Systems { Workshop on Embedded HPC Systems and Applications { Reconfigurable Architectures Workshop { Workshop on Formal Methods for Parallel Programming { Workshop on Optics and Computer Science { Workshop on Run-Time Systems for Parallel Programming { Workshop on Fault-Tolerant Parallel and Distributed Systems All papers published in the workshops proceedings were selected by the program committee on the basis of referee reports. Each paper was reviewed by independent referees who judged the papers for originality, quality, and consistency with the themes of the workshops.

From reader reviews:

Doris Geer:

Do you have favorite book? In case you have, what is your favorite's book? Publication is very important thing for us to understand everything in the world. Each publication has different aim as well as goal; it means that book has different type. Some people really feel enjoy to spend their a chance to read a book. They may be reading whatever they consider because their hobby is reading a book. Why not the person who don't like reading a book? Sometime, particular person feel need book if they found difficult problem or even exercise. Well, probably you will need this Parallel and Distributed Processing: 15 IPDPS 2000 Workshops Cancun, Mexico, May 1-5, 2000 Proceedings (Lecture Notes in Computer Science).

Scott Barbour:

Spent a free time for you to be fun activity to perform! A lot of people spent their free time with their family, or their friends. Usually they performing activity like watching television, planning to beach, or picnic in the park. They actually doing same thing every week. Do you feel it? Do you need to something different to fill your own personal free time/ holiday? Could possibly be reading a book may be option to fill your totally free time/ holiday. The first thing you ask may be what kinds of publication that you should read. If you want to try look for book, may be the publication untitled Parallel and Distributed Processing: 15 IPDPS 2000 Workshops Cancun, Mexico, May 1-5, 2000 Proceedings (Lecture Notes in Computer Science) can be excellent book to read. May be it can be best activity to you.

Donn Chavez:

What is your hobby? Have you heard that question when you got college students? We believe that that question was given by teacher to the students. Many kinds of hobby, Every individual has different hobby. Therefore you know that little person similar to reading or as reading become their hobby. You need to know that reading is very important in addition to book as to be the issue. Book is important thing to increase you knowledge, except your teacher or lecturer. You get good news or update in relation to something by book. Different categories of books that can you choose to use be your object. One of them is this Parallel and Distributed Processing: 15 IPDPS 2000 Workshops Cancun, Mexico, May 1-5, 2000 Proceedings (Lecture Notes in Computer Science).

Robbie Lewis:

Reading a publication make you to get more knowledge from this. You can take knowledge and information from the book. Book is prepared or printed or descriptive from each source that filled update of news. On this modern era like at this point, many ways to get information are available for anyone. From media social just like newspaper, magazines, science e-book, encyclopedia, reference book, fresh and comic. You can add your understanding by that book. Do you want to spend your spare time to open your book? Or just seeking the Parallel and Distributed Processing: 15 IPDPS 2000 Workshops Cancun, Mexico, May 1-5, 2000

Proceedings (Lecture Notes in Computer Science) when you necessary it?
