The Plan of Saint Gall is a famous medieval architectural drawing of a monastic compound dating from the early 9th century. It is preserved in the Stiftsbibliothek Sankt Gallen, Ms 1092. It is the only surviving major architectural drawing from the roughly 700-year period between the fall of the Roman Empire and the 13th century. It is considered a national treasure of Switzerland and remains an object of intense interest among modern scholars, architects, artists and draftsmen for its uniqueness, its beauty, and the insights it provides into medieval culture. This single-volume condensed edition was published in 1982 as *The Plan of St. Gall - In Brief*. Some say the Plan was a copy of an original blueprint of an ideal monastery created at two Carolingian reform synods held at Aachen in 816 and 817. The purpose of the synods was to establish Benedictine monasteries throughout the Carolingian Empire as a bulwark against encroaching Christian monastic missionaries from Britain and Ireland who were bringing Celtic lifestyle influences to the Continent.
