Review from Rebecca:

This original and cute book shows women that they have more control over their marriage than they might think. The author teaches you simple things to say to your husband that will let him know you are on his side. I felt this book was very positive and had tips that really work. I've read over 120 books on relationships and marriage and this one seems the most practical.

Review from Agatha Miller:

Maintaining the love sparkle throughout years and years of marriage is not always an easy job, and I think the increased number of divorces lately stand as real proof for that. And most of times all we need to do is to stick to the basics and remember that men are from Mars and women are from Venus. I have enjoyed this book mainly because it is focused on the simple things that matter, the tips provided in this book are realistic and I have observed them in my own marriage - so it is a good and handy reminder for any married woman that wants to play her part in maintaining a happy marriage.

Review from Jane:

Great! It's very useful, especially some details in the book. Hope to read more books!
