Automated Technology for Verification and Analysis: Third International Symposium, ATVA 2005, Taipei, Taiwan, October 4-7, 2005, Proceedings (Lecture Notes in Computer Science)

The Automated Technology for Verification and Analysis (ATVA) international symposium series was initiated in 2003, responding to a growing interest in formal verification spurred by the booming IT industry, particularly hardware design and manufacturing in East Asia. Its purpose is to promote research on automated verification and analysis in the region by providing a forum for interaction between the regional and the international research/industrial communities of the field. ATVA 2005, the third of the ATVA series, was held in Taipei, Taiwan, October 4–7, 2005. The main theme of the symposium encompasses design, complexities, tools, and applications of automated methods for verification and analysis. The symposium was co-located and had a two-day overlap with FORTE 2005, which was held October 2–5, 2005. We received a total of 95 submissions from 17 countries. Each submission was assigned to three Program Committee members, who were helped by their subreviewers, for rigorous and fair evaluation. The final deliberation by the Program Committee was conducted over email for a duration of about 10 days after nearly all review reports had been collected. In the end, 33 papers were selected for inclusion in the program. ATVA 2005 had three keynote speeches given respectively by Amir Pnueli (joint with FORTE 2005), Zohar Manna, and Wolfgang Thomas. The main symposium was preceded by a tutorial day, consisting of three two-hour lectures given also by the keynote speakers.

From reader reviews:

Roy Matsumoto:

Do you one of the book lovers? If so, do you ever feeling doubt while you are in the book store? Make an effort to pick one book that you never know the inside because don't ascertain book by its handle may doesn't work is difficult job because you are afraid that the inside maybe not because fantastic as in the outside look likes. Maybe you answer can be Automated Technology for Verification and Analysis: Third International Symposium, ATVA 2005, Taipei, Taiwan, October 4-7, 2005, Proceedings (Lecture Notes in Computer Science) why because the great cover that make you consider in regards to the content will not disappoint you actually. The inside or content is fantastic as the outside or even cover. Your reading sixth sense will directly guide you to pick up this book.

Jesse Hooker:

The book untitled Automated Technology for Verification and Analysis: Third International Symposium, ATVA 2005, Taipei, Taiwan, October 4-7, 2005, Proceedings (Lecture Notes in Computer Science) contain a lot of information on the item. The writer explains your ex idea with easy technique. The language is very simple to implement all the people, so do certainly not worry, you can easy to read that. The book was published by famous author. The author provides you in the new period of time of literary works. It is easy to read this book because you can please read on your smart phone, or model, so you can read the book throughout anywhere and anytime. If you want to buy the e-book, you can wide open their official web-site along with order it. Have a nice learn.

William Reyes:

Guide is one of source of knowledge. We can add our understanding from it. Not only for students but additionally native or citizen will need book to know the up-date information of year to help year. As we know those guides have many advantages. Beside most of us add our knowledge, also can bring us to around the world. By book Automated Technology for Verification and Analysis: Third International Symposium, ATVA 2005, Taipei, Taiwan, October 4-7, 2005, Proceedings (Lecture Notes in Computer Science) we can consider more advantage. Don't someone to be creative people? To be creative person must want to read a book. Only choose the best book that ideal with your aim. Don't become doubt to change your life at this book Automated Technology for Verification and Analysis: Third International Symposium, ATVA 2005, Taipei, Taiwan, October 4-7, 2005, Proceedings (Lecture Notes in Computer Science). You can more pleasing than now.

Valery Carpenter:

Reading a reserve make you to get more knowledge from it. You can take knowledge and information originating from a book. Book is written or printed or created from each source that filled update of news. In

this particular modern era like today, many ways to get information are available for you. From media social like newspaper, magazines, science e-book, encyclopedia, reference book, book and comic. You can add your understanding by that book. Isn't it time to spend your spare time to spread out your book? Or just searching for the Automated Technology for Verification and Analysis: Third International Symposium, ATVA 2005, Taipei, Taiwan, October 4-7, 2005, Proceedings (Lecture Notes in Computer Science) when you desired it?
