This book tells you exactly what to do, if you want to write your own book. That is why it's so fucking expensive. Why should I give you this information for free? Fuck you! This book is written in easy English, so you will understand what it says, but this is not a school book. It's my autobiography. It's a diary. There is short story. There is poetry... This book contains everything that you need to know to write a book, and it also contains a lot of stuff that you don't need to know, and hell of a lot of stuff that you don't even want to know. Who am I? I'm MrTackle, originally from Finland, but if you buy my books, I will be living in Amsterdam and Pattaya. I used to work in this nameless international corporation, which sells house electronics to all over the planet, but now I just write books and enjoy my fucking life. This book is a perfect gift to anyone, who has ever said these words aloud: It has been always my dream to write a book. Because no it hasn't, and this book tells you why! Do you want to know how it's done? Buy this book. Otherwise, go fuck yourself.
