Silent Spring Revisited Conor Mark Jameson

American scientist and author Rachel Carson is said to have sparked the modern day environmental movement with the publication of *Silent Spring* in 1962. She made vivid the prospect of life without birdsong. But has her warning been heeded?

Fifty years on, Conor Mark Jameson reflects on the growth of environmentalism since *Silent Spring* was published. *Silent Spring Revisited* plots milestone events in conservation, popular culture and political history in the British Isles and beyond, tracing a path through the half century since 'zero hour', 1962.

Around this he weaves his own observations and touching personal experiences, seeking to answer the question: what happened to the birds, and birdsong, and why does it matter?
