**Nelson Mandela's Favorite African Folktales** Nelson Mandela (editor)

*Nelson Mandela's Favorite African Folktales* is an audiobook benefiting children orphaned and impacted by HIV/AIDS in South Africa. Featured narrators include Gillian Anderson, Benjamin Bratt, LeVar Burton, Ricardo Chavira, Don Cheadle, Matt Damon, Whoopi Goldberg, Sean Hayes, Hugh Jackman, Samuel L. Jackson, LaTanya Richardson Jackson, Scarlett Johansson, Debra Messing, Helen Mirren, Parminder Nagra, Sophie Okonedo, CCH Pounder, Alan Rickman, Jurnee Smollett, Charlize Theron, Blair Underwood, Forest Whitaker, and Alfre Woodard, with a special message from Archbishop Desmond Tutu and original music by South African legends by Johnny Clegg and Vusi Mahlasela, directed by Alfre Woodard.

The audiobook was a truly international affair, recorded in Los Angeles, New York, Miami, London, and Johannesburg. The stories were chosen by the Nobel Laureate himself, from every region of Africa.

Net proceeds will benefit the **Nelson Mandela Children's Fund** and **Artists for New South Africa**, which works in the U.S. and South Africa to combat HIV/AIDS, provide comprehensive assistance to children orphaned by HIV/AIDS, advance human rights, educate and empower at-risk youth, and build bonds between both nations. Both organizations are working to address the impact of the AIDS pandemic on children in South Africa.

All the individuals and companies involved in the effort have donated their services to allow a maximum amount of proceeds to benefit the charities. In addition to waiving sales and distribution fees, Hachette Audio will donate 100% of proceeds to ANSA and NMCF, and NB Publishers has waived fees, so additional royalties can benefit NMCF. The audiobook was manufactured by Ivy Hill/Cinram, which is donating a significant portion of their services. The actors, creative director, engineers, graphic designers, attorneys, and recording studios fully donated their services, as did three-time Grammy winner Gavin Lurssen, who mastered the audiobook.
