Implementing Reproducible Research (Chapman & Hall/CRC The R Series)

Implementing Reproducible Research (Chapman & Hall/CRC The R Series)

In computational science, reproducibility requires that researchers make code and data available to others so that the data can be analyzed in a similar manner as in the original publication. Code must be available to be distributed, data must be accessible in a readable format, and a platform must be available for widely distributing the data and code. In addition, both data and code need to be licensed permissively enough so that others can reproduce the work without a substantial legal burden.

Implementing Reproducible Research covers many of the elements necessary for conducting and distributing reproducible research. It explains how to accurately reproduce a scientific result.

Divided into three parts, the book discusses the tools, practices, and dissemination platforms for ensuring reproducibility in computational science. It describes:

- Computational tools, such as Sweave, knitr, VisTrails, Sumatra, CDE, and the Declaratron system
- Open source practices, good programming practices, trends in open science, and the role of cloud computing in reproducible research
- Software and methodological platforms, including open source software packages, RunMyCode platform, and open access journals

Each part presents contributions from leaders who have developed software and other products that have advanced the field. Supplementary material is available at www.ImplementingRR.org.

From reader reviews:

John Kuykendall:

Reading a reserve can be one of a lot of activity that everyone in the world really likes. Do you like reading book and so. There are a lot of reasons why people enjoy it. First reading a book will give you a lot of new details. When you read a guide you will get new information since book is one of several ways to share the information or maybe their idea. Second, reading through a book will make you actually more imaginative. When you reading through a book especially fictional works book the author will bring that you imagine the story how the figures do it anything. Third, you can share your knowledge to others. When you read this Implementing Reproducible Research (Chapman & Hall/CRC The R Series), you could tells your family, friends in addition to soon about yours e-book. Your knowledge can inspire the mediocre, make them reading a e-book.

Gene Kirkland:

Playing with family inside a park, coming to see the marine world or hanging out with pals is thing that usually you could have done when you have spare time, then why you don't try thing that really opposite from that. 1 activity that make you not feeling tired but still relaxing, trilling like on roller coaster you already been ride on and with addition details. Even you love Implementing Reproducible Research (Chapman & Hall/CRC The R Series), you could enjoy both. It is excellent combination right, you still need to miss it? What kind of hangout type is it? Oh can happen its mind hangout men. What? Still don't understand it, oh come on its referred to as reading friends.

Leon Fisher:

Don't be worry should you be afraid that this book will filled the space in your house, you might have it in e-book method, more simple and reachable. This specific Implementing Reproducible Research (Chapman & Hall/CRC The R Series) can give you a lot of buddies because by you checking out this one book you have thing that they don't and make you more like an interesting person. This specific book can be one of a step for you to get success. This publication offer you information that might be your friend doesn't realize, by knowing more than other make you to be great persons. So , why hesitate? Let me have Implementing Reproducible Research (Chapman & Hall/CRC The R Series).

Larhonda Kennedy:

Some individuals said that they feel fed up when they reading a guide. They are directly felt it when they get a half regions of the book. You can choose the actual book Implementing Reproducible Research (Chapman & Hall/CRC The R Series) to make your own personal reading is interesting. Your own skill of reading skill is developing when you such as reading. Try to choose very simple book to make you enjoy to learn it and mingle the idea about book and examining especially. It is to be first opinion for you to like to start a book and read it. Beside that the e-book Implementing Reproducible Research (Chapman & Hall/CRC The R

Series) can to be your friend when you're feel alone and confuse using what must you're doing of that time.
